These Are Closing Sales Each Day.

New York, Sept. 13.—So far as the stock market can be relied upon as a mirror of the general condition, the country remains plunged in profound doubt and uncertainty. The few stocks in which any appreciable movement occurred to-day were dealt in so small an extent as to detract from the significance of the changes. The coalers showed some sharp declines, Lackawanna losing 2½ points, while Reading, first preferred, and Jersey Central were down at one time about a point, but partly recovered. Some depression was reflected from foreign exchanges, London showing uneasiness over the likelihood of a railroad strike. The leading incident of the day in the financial world was the easing of the private discount rate in London in response to the large additional recuperation shown by the Bank of England. The sterling exchange rate fell sharply in New York, Paris and Berlin as a consequence; an advance in the Berlin discount rate helping the movement. The London money market was apparently undisturbed by the stock exchange settlement and the 25 per cent. Installment falling due to-morrow on subscriptions to the British exchequer bond issue. This leaves half of the subscription yet to be most. The general admission hat a German loan to the extent of \$25,000,000 is to be placed in New York gives additional instance of the effect of the remaining finance in the setting state of the sylves additional instance of the stock of the German loan will have to be met by gold exports, the need of gold being the evident motive of the German powernment in seeking to place the loan in New York the bank which holds over \$10,000,000 of surplus reserves, compared with the total surplus of \$25,000,000 for all of the German loan to the remaining financian, has for its correspondent in New York the bank which holds over \$10,000,000 of surplus reserves, compared with the total surplus of \$25,000,000 for all of the Sixty-three clearing house banks Fully \$7 per cent, of this bank's reserves are in gold. Converted Steamer Sunk-

Converted Steamer SunkThe four-masted iron sailing ship May Flint collided in San Francisco bay on Saturday night, spilt open and went down. The Flint was bound from Seattle with 5,000 tons of coal, and when off the mail dock at San Francisco collided with the bark Vidette. After the collision she drifted down into the bows of the United States hattleship Iowa, at anchor. After bumping the Iowa she spilt open, filled and sank.

She was formerly the British steamer Persian Monarch and the change was one of the first made to convert a steamer into a sailing ship. The work was done at Newport News. The Flint was owned by Flint & Co., of New York, but was recently sold to a syndicate on the Pacific coast. She has had many mishaps.
